The products supplied by KOSTAL Industrie Elektrik GmbH & Co KG contain substances of very high concern (SVHC) in a concentration above 0.1 % published in the Candidate List (<https://echa.europa.eu/candidate-list-table>) by ECHA (<https://echa.europa.eu/home>) according to Art. 33 of the REACH Regulation:

Since KOSTAL Industrie Elektrik GmbH & Co KG is not producing any raw materials used for manufacturing its products, compliance with the statement formulated above has not been verified by tests or analysis, but is declared based on the information available to us by our raw material suppliers. It can therefore not be excluded that trace levels of these substances may be unintentionally present (amongst others because they may be ubiquitous in the environment) or may result from the specific characteristics of the raw materials or the manufacturing process. It is the responsibility of the recipient of our products to ensure that any local applicable rules and legislation are observed. This document is valid exclusively for the current state of the products and raw materials.
